It is my great honour to attend this prize presentation and opening ceremony of the "**Loftman International Circuit - 2018 (Digital)**" for sharing the joy and achievements of the event with all of you. This circuit not only provides enthusiastic photographers with a good platform to develop and express their creativity, multiple ways of seeing and making through visual arts creation and appreciation, but also enables the public to appreciate the essence of different cultures and fosters international communication, mutual respect as well as global harmony.

In this inaugural event, it is very encouraging that over 6183 pieces of photographic works have been submitted through the on-line system from 39 countries and in digital formats through various means from all over the world out of which 2347 have been selected for the exhibition.

I would like to take this opportunity to welcome prize winners, participants from different parts of the world to participate in this ceremony. We would like to express our gratitude to PSA, ISC, GPU and IUP for their kind support. Our special thanks are also extended to the adjudicators and club members.

Last but not the least, without the enthusiastic participation from you, the Loftman Art Society would not have achieved such a big success. We hope that we will continue to work together for the promotion of art and creativity, as well as cross-cultural friendship and harmony for the bountiful life of tomorrow.

Thank you very much.
